				8	10-Minute Left Hip Aluminum															I	Foster Brass		
																				J	Cejn Chrome		
																				K	Duff-Norton Brass		

Note: Must choose No Bypass option when ordering a PremAire less an escape cylinder

Note: If you have selected the Dual-Supply option, you will need two of the same Quick-Disconnects. Just put one letter in the part number to indicate your selection, but when you calculate the price of your system, make sure you include a price for each Quick-Disconnect.

Part Number

C — PS ____ — ____ — ____ — ____ — ____

*Unit requires use of a Quick-Disconnect to maintain approval.

*Note: This matrix must only be used for ordering complete PremAire Systems. This matrix cannot be used for ordering individual components (i.e., facepieces, escape cylinders, etc.). Please order components separately using their standard MSA part number.

‡For applications strictly limited to non-IDLH atmospheres, NIOSH requires that the respirator system be configured without a bypass on the mask-mounted regulator (MMR). Please contact MSA Customer Service for more information.
